## The Big Chance

Clear out the attic and sell all that stuff you've been hoarding.  
For next week is **BULKY WARE DAY**. Any one who uses the Bulletin want of service will do so at half price. This is your opportunity!

Four-year-old Richard Arthur Biedrawa of 6909 127th Avenue was killed at 6:30 p.m. yesterday as he played with his brother and another companion near 68th Street and the Port Road.

The child was struck by a city-owned truck operated by William Dupont of 11424 79th Street in the subway beneath the CNR tracks leading to the North Edmonton district.

The truck is owned by the British Columbia Oil Co. No charge has been laid against Dupont, who was driving the truck at the time of the accident.

The victim with his brother, Edwin Biedrawa, 10, and Ernest Patrick, six, 1285 67th Street, started to run from the south to the north side of the Port Road. The two older boys tripped when they saw the truck approaching from the northwest.

But young Richard apparently did not see or hear the vehicle. Driver Dupont said he was driving the truck at the time of the accident.

Bottom of Schurp No. 1 Golden Spike discovery was lowered another ten feet as a series of tests took at the well yesterday.

Test of the interval 5813 to 5823 brought a flow of oil to the surface and increased the thickness of the pay zone to 260 feet from the bottom of the casing.

No water showed in the test when the derrick was pulled. A further ten feet have been lowered in preparation for further testing.

## Flyers One Down But Certainly Not Out

Of course Edmonton's hockey-playing Flyers aren't superstitious but if crossing a few fingers will help start a winning streak, fingers will be crossed. Flyers haven't got their backs to the wall but they feel they just better win tonight's game at Regina just the same.

## Tonight's Game at Regina Seen 'Big One' for Flyers

By Stan Mohr  
Bulletin Sports Editor

REGINA, March 19.—The "guessperts" have got around to saying that Flyers' chances of knocking off Regina Caps in the Western Canada Hockey League final hinge pretty well on the outcome of tonight's second game in Joe Dukowick's Queen City Gardens.

Caps, of course, have one victory in the bag off their 8-3 shakedown of the Edmonton crew in Thursday's opening tilt.

"If the Caps win this one you can write off those Flyers," say the arm-chair statisticians.

Agreed, Flyers position will be critical should they not head off the Caps in the second game. But Frank Currie stated yesterday that regardless of the outcome of tonight's encounter "We'll still be right in the thick of the series."

Agreed, Flyers position will be critical should they not head off the Caps in the second game. But Frank Currie stated yesterday that regardless of the outcome of tonight's encounter "We'll still be right in the thick of the series."

## Blue Skies Out As Snow Back

Blue skies and balmy breezes of yesterday are giving way today to a cloudy overcast and snowflakes.

The weathermen reports it was snowing all night north and west of Edmonton, in the Whitecourt, Murray and Wapiti areas, and flying snow is expected here momentarily.

Colder weather is expected to accompany the snow, but it will be prolonged. Higher temperatures and clear skies are predicted by Monday.

Saga, which has become the synonym for frigid temperatures, had 17 below last night, but yesterday went one better with 29 below.

Vancouver, on the other hand, enjoyed a maximum of 60 above.

# City Soldiers Swell Income Tax Totals

Edmonton's active force soldiers boosted Canadian income tax returns by more than \$70,000, the amount deducted from their pay cheques during 1939.

Officers, non-commissioned officers and other ranks of the Canadian Army serving in Western Command contributed a total of \$282,905.61 in income tax payments. Of that amount \$70,000 was paid by active force soldiers at Edmonton and \$63,658 by personnel in the Calgary area.

On the West Coast, income tax deductions totaled \$90,000 for army personnel serving in British Columbia.

At Whitehorse, Y.T., headquarters of the Northwest Highway System, pay cheque deductions for income tax purposes amounted to \$29,300.

Non-active army personnel in Western Command were taxed at most \$20,000 on part-time earnings.

## A. F. Field Heads Union

Proposed amendments to the Credit Union Act are under consideration by a resolutions committee of the Credit Union League of Alberta.

The committee was formed at the annual meeting of the league at the Social Credit Hall recently, and attended by 30 members representing 12 credit unions from Edmonton and district.

The committee will report its proposals to a provincial convention of Credit Unions at Calgary June 1.

A. F. Field was named president of the local league members. Other officers elected were: A. R. White, vice-president; Alfred Pearl, treasurer; Mrs. Ian Fraser, secretary; Ian Fraser, chairman of the education committee; Joseph Lawrence, membership chairman; J. H. Gault, publicity; Fred Hunka, instructor; G. W. Linke and J. J. Forest, auditors.

## ANY TAKERS?

## Wray Makes Big Plea For Cheap Hootch

Unique suggestion that a cut in the cost of liquor would be a "key" toward temperance was made in the Alberta legislature yesterday.

Arthur Wray (Ind. SC-Baile-Coehane) outlined in general terms the cost of liquor traffic in broken homes, traffic accidents, and in ruined lives, before he advanced his claim that liquor be made more accessible from the point of view of both price and availability.

That a downward revision in price of liquor would mean a drop in provincial revenue was "only secondary," Mr. Wray said.

Mr. Wray was speaking while the legislature was considering estimates and was asked to approve the annual one dollar vote for the Alberta Liquor Control Board.

MENTAL SHOCK caused evacuation of Eskimo mother, Iahmootook, about 45, from the plague-stricken Eskimo village of Cresswell Bay, in the frigid Arctic.

## Orange Lodge Makes Protest on Premier

Vigorous protest against Prime Minister St. Laurent's proposal for bi-lingual ability among civil servants was voiced by the Grand Orange Lodge of Alberta, meeting in annual convention here.

The lodge protested the proposal on the grounds that a very small percentage of civil servants outside the province of Quebec need to speak both French and English. The lodge also expressed its disapproval of the government's suggestion that the "understanding" of the Dominion cabinet in countermanding the deportation of four immigrants, who allegedly acted as Nazi collaborators in France.

"Strongest opposition" was expressed by the group to a proposal to abolish appeals to the Privy Council, and opposition to the exportation outside the province of natural gas for industrial purposes until present and future provincial requirements are assured was voiced.

The lodge pledged support of the United States efforts for continued partition from Southern Ireland.

At Camrose and Ponoka members of the Red Deer and Grand Master of the local lodge were: R. E. Haynes, W. L. Mackinnon, grand deputy grand master; Rev. D. V. A. Brown, Barrhead, grand chaplain; J. G. Campbell, Calgary, grand secretary; P. M. Martin, Turin, grand lecturer; E. E. Hanlan, Ardrossan, grand master; and Donaldson, Charles A. Ball, Calgary, grand auditor; Rev. W. Morrison, Aldridge.

Edward Hotel. He will speak on Kiwanis activities and will meet members of the executive at a dinner meeting that evening.

Members of the Y's Men's Club will hear an address by Very Rev. Dean Cecil Seaton of Vancouver at their regular dinner-meeting Tuesday evening in the YMCA.

# Oil Sands Plant Talked in House

## Liberal Leader, Premier Clash On Operations

The contentious oil sands operation by the provincial government came up for debate in the Alberta legislature and resulted in an argument between Premier E. C. Manning and the Alberta Liberal Leader J. Harper Prowse.

In answer to questions Mr. Manning said the cost of setting up the bituminous plant at McIntyre, Alta., so far was \$750,000.

He was replying to questions fired by Prowse during consideration of the public works estimates.

Manning said it was in the public's interest to continue the oil extraction tests at the plant, "even though new oil discoveries leave a changed picture in regard to production of the plant."

He said that in spite of this the public want to know whether oil could be extracted from the McMurray sands on an economical basis and whether or not this plan could provide the answer.

During the early part of the sitting eight government bills and one public bill were put through for second reading.

During consideration of the bill of public commissioners voted Liberal Leader Prowse made a plea for a public advocate.

He said that in milk delivering especially, the producers could not be helped out, but that it sometimes happens that the unorganized consumers present no case.

He went on to say that he considered that a public official should be appointed to act in behalf of the consuming public.

In reply Mr. Manning said he felt that the cities and towns could assist their own citizens in this matter and that the province had no right to control "a matter of some value to both producers and consumers."

## Boys Jailed For Break-In

Just 12 hours after their early morning arrest by city police, two 16-year-old Edmonton youths were on their way to jail.

Appearing in city court yesterday afternoon, Donald Granger, 950 101 street, received a 12-month sentence, and William Allen, 9509 100 street, was sentenced for 15 months after both had pleaded guilty to breaking into the Gareau theatre coffee shop.

They were arrested at 2:30 a.m. by Special Constable Len Heyes, after he had, during his routine patrol, found the youths in the building.

## How Kidneys affect YOUR KIDNEYS

The kidneys are very delicate organs, easily affected—especially by a cold. Their duty is to filter impurities and excess acids from the blood. When you have a cold—or any other ailment which causes acid to poison the system—extra work is thrown upon your kidneys to help clear the kidneys in good order to help clear your system of extra acids and poisons caused by cold or other ailments, see Dodd's Kidney Pills. Non-habit forming—easy to take.

THAMES 1600/70 The THAMES half-ton has been specially designed to provide light weight delivery truck with extra room—very handling—100 cc. It is of the type that is built to the value. The THAMES half-ton is the most useful car in your business.

THAMES 1235/70 Here is the speedy executive for fast fast delivery. It is a car that is built to the value. The THAMES half-ton is the most useful car in your business.

## AIR FORCE BUYS CRAFT

Converted United States landing craft will be used by the RCAF in supplying the northern base and establishing supply fuel and food caches in the north.

The vessel, MS Showfield II, was sold to the Dominion government for use in the Arctic shipping area by the Arctic Shipping Co. Ltd. R. E. Harcourt, Edmonton, is accompanied by a business visitor to the ship.

## Legion Meets Here Sunday

Delegates to the provincial Legion convention at Banff next June will be nominated at the general meeting of the Edmonton Mountglen branch of the Canadian Legion, 1824, at Memorial hall tomorrow.

The meeting will begin at 2:30 p.m. Nominations will not be accepted after this meeting.

Members will hear guest speaker E. J. A. J. A. Laing discuss the battle of Britain.

## Police Seek Accounter

Middle-aged, dark-haired man of medium build is being sought by city police for account of an Edmonton job.

Miss Helen Birchall, 107 107 street reported that on Thursday a man who seemed to have been following her home, grabbed her. She managed to break away and ran into a nearby store.

JOHNSTONE WALKER

# Milk Delivery Mistake

Confirming the continued protests made by The Edmonton Bulletin and others against the six-day milk delivery system, Dr. G. M. Little, medical officer of health, has asked the Board of Public Utilities Commissioners to reconsider their ruling in this regard.

Dr. Little says that housewives whose homes are not equipped with refrigeration are having difficulty keeping milk fit for consumption over week-ends.

He implies that once hot weather sets in, this difficulty will be magnified into a threat to public health.

When the order instituting six-day delivery was made last year, The Bulletin warned that this would turn out to be the case.

The six-day system should never have been authorized in the first place, because the arguments upon which its proponents based their pleas were plainly in error.

## Straightforward and Sane

The long-awaited text of the North Atlantic Pact, released yesterday, reveals an arrangement that is realistic, straightforward and sane.

Its power lies mostly in its simplicity. It is a plain agreement between a group of peace-loving nations to come to the assistance of each other if they are attacked by an aggressor state.

In a way, the North Atlantic Pact represents a more potent alliance than the United Nations because the former in-

It was represented that there was a public demand for the six-day delivery on the compassionate ground that housewives pitied the poor milkmen making their Sunday rounds.

As a matter of fact, the milkmen themselves, with a few exceptions, objected and still object to the change.

They object to the six-day system because they get less free time than they did before. They always got one day off. But instead of having a normal Saturday delivery as they did under the old system, they now carry a double load on Saturdays and work longer hours on that day.

Thus, if the public pitied the milkmen under the former system, they did so under a misapprehension.

The six-day delivery has not been a success.

And the new facts presented by Dr. Little show that it is intolerable.

## Humors of Justice

They manage to have amusing times in the administration of justice in British Columbia.

For instance, a Ladner man was sentenced to six months in Okalla prison farm for theft.

When he arrived at the jail, he was found to be suffering from scabies which, in plain language, is itch.

The warden refused to have his other prisoners exposed to itch and declined to admit the new convict. The attorney-general backed him up and so the Ladner man was set free.

Now this is a most amazing circumstance that it puts the warden of a prison in jail in the position of quashing the sentence of a judge.

It is all the more astonishing because scabies is easily amenable, we are reliably informed, to applications of sulphur and lard.

Surely the B.C. prison has a hospital ward and a supply of sulphur and lard. This affair was reported as something of a joke.

It is not a joke.

It makes a farce of justice which needs now, as never before, to have the fullest respect of the public.

It is not good enough when wardens overrule judges and when all a man has to do to commit crime with impunity is to contract a case of itch.

Incinerator, Irrational

Editor, Bulletin.—The recent flamboyant outburst by Mr. Drew, the leader of the opposition, are, in my opinion, neither sincere nor rational.

First, he accuses Mr. St. Laurent of being a bureaucrat.

Second, he accuses him of being a servant of "big interests."

Third, he accuses him of embracing the principles of Socialism and Communism.

If there are not three of the most wild and irrational accusations there I've not heard them.

How can anyone be a servant of "big interests" if he is embracing the principles of Socialism and Communism at one and the same time? These are the questions that Mr. Drew is trying to bring up.

These semi-Christians are greater menaces to religion than the out-and-out atheists.

These semi-Christians are greater menaces to religion than the out-and-out atheists.

Mr. Drew's asseveration of the

United Hong Kong expedition is, in my opinion, nothing more or less than an attempt to try and make a political football out of those who valiantly fell in that far eastern despatch. I wonder how many of those who fell there tasted the sweets a Conservative government gave them when they practically forced them into work camps for 30 cents a day.

It was in the days when a Conservative government ran this country—the "hungry thirties."

Many perished men of the 1914-18 war shudder when they think of this harrowing time.

And despite all the rhetorical ravings of Mr. Drew, will not wipe out their bitter memories.

There are thousands of fathers, mothers and daughters who also, like Queker, have at their heart, "I remember."

# Emore Philpott

Political Labels Defined In Terms Of World Change

Philpott

A reader sends me the following extract from a U.S. magazine and asks for comment:

"Liberalism is a term which believes that change is not only inevitable, but desirable, and that, unfortunately, somebody is going to get hurt."

"A Revolutionary—A person who feels that numerous persons ought to get hurt."

"A Conservative—Generally the person who will get it the neck."

Here is my definition of a die-hard:

"A fellow who will fight to the last to keep from passing out the very things that his die-hard ancestors fought to the last to keep from coming in."

Change

Essential

The genuine liberal (without the capital L) seems to me the person who recognizes that change is inevitable, and that the few may be injured by it, but many more helped by it.

We have heard a great deal in recent years about the "liberal" approach to consider all sides to the question. He believes in compromise, adjustment, and even of inconsistency.

## Those Who Are Against Christ

In the eleventh chapter of his Gospel, St. Luke records one of the miracles of Jesus and then he quotes our Lord as saying:

"He that is not with Me is against Me; and he that gathers not with Me scatters."

During the season of Lent, which is a time for the self-examination of human hearts, this text should be studied with particular diligence because it contains one of those profound truths that are poignantly applicable to these times.

For Jesus refers, of course, to those who are pleasantly neutral in the matter of religion and consider themselves, in a general way, to be Christians because they do not actively oppose the Christian Faith.

This type of person can be numbered by the millions in this age.

Among them are the genial humanists who live by the Golden Rule and consider that they are doing the spiritual duty because they have a tender feeling for

the human race and refrain from cheating, blackguarding or killing their fellow men.

Even the churches get a number of these people who go along for the music or because it is the fashionable thing to do or because the preacher entertains them.

These are the people who forget that churches are for the worship of God and are neither social clubs nor centres of fashion.

Among the neutral religious, too, are those who insist upon having the sacraments of the Church without contributing a prayer or a cent to its support.

They come for baptisms, weddings and burials. The rest of the time they play golf or go to the theatre.

These semi-Christians are greater menaces to religion than the out-and-out atheists.

These semi-Christians are greater menaces to religion than the out-and-out atheists.

Christ says that those who are not with him are against him.

There is no middle road.

Mr. Drew's asseveration of the

By Harold L. Weir

## ODDS AND ENDS

### Delayed Reaction

### Use of That Very Naughty Phrase

For more than two restless weeks I have been hoping against hope that I would not be beggared into writing something in a modest corner about that nasty little phrase that President Truman applied to the Russian.

I have endeavored to apply to the situation that technique WEIR employed by pointing out that children, unknowingly, let fall from their innocent lips some horrible obscenity in the presence of company.

In short, I have tried to distance the matter from my mind with a picture of mental life with a blunder than with a expression upon my mental physiology.

But it's no good.

I wake in the small hours to find my mind rather sick with chuckling at the vigorous outburst of Mr. Truman's outburst and my more subtle wiles trying to be checked at it.

So I might just as well get it off my chest.

Besides, no matter how much this phrase may wound the personal sensibilities of individuals, it expresses a profound truth with regard to Mr. Drew Pearson that one must study Mr. Truman's device of trying to be checked at it.

So I might just as well get it off my chest.

Besides, no matter how much this phrase may wound the personal sensibilities of individuals, it expresses a profound truth with regard to Mr. Drew Pearson that one must study Mr. Truman's device of trying to be checked at it.

So I might just as well get it off my chest.

### Reaction on Mr. Truman's Use of That Very Naughty Phrase

They like to think that the rulers of this world are somewhat remote from the temptations and even the normal temptations of ordinary human beings.

Thus, this feeling I have every sympathy.

I am completely at variance with those who say that children, unknowingly, let fall from their innocent lips some horrible obscenity in the presence of company.

In short, I have tried to distance the matter from my mind with a picture of mental life with a blunder than with a expression upon my mental physiology.

But it's no good.

I wake in the small hours to find my mind rather sick with chuckling at the vigorous outburst of Mr. Truman's outburst and my more subtle wiles trying to be checked at it.

So I might just as well get it off my chest.

## Smiles

A jumped to his feet and in a shaking voice addressed the audience

DOUBLE BILL opening for a star engagement at the Strand Theatre, giving top billing to "The Search," starring Montgomery Clift. The film has been hailed as one of the finest in years. Second feature on the program is "No Minor Vices."

## 'The Search' Is Film Of Tense Drama

Woven out of the very heart and soul of life in post-war Europe, "The Search," new MGM offering starting at the Strand theatre Monday for a six-day run, is an unforgettable motion picture.

Seldom have such true characters emerged on the screen, enacting a story that is a great emotional adventure, as those featured in "The Search."

The story of mother love, around which the plot revolves, is that of Mrs. Malik, a young Czechoslovakian mother whose family is devastated.

Separated from his mother, her little boy, Ivan, becomes a wandering refugee. As the tides of war surge across the land he is finally picked up with other children and sent to an UNRRA camp.

When the children are being transported to another centre, Ivan, reacting like a hunted animal, escapes and hides away among the ruined buildings.

Picked up by a GI, he again tries to run away; then, convinced that the American soldier is really his friend, he changes his point of view and begins to learn English.

Released from prison, Ivan's mother never abandons hope that her boy is alive somewhere in spite of apparent evidence that he has been drowned.

The drama of how she is eventually reunited with her son provides an intense, gripping climax to one of the most remarkable pictures in recent years.

Montgomery Clift, at the young American GI who befriended Ivan, contributes one of his best screen characterizations. Alene MacMahon, as the resilient worker, supplies another memorable character, and Wendell Corey is excellent in a smaller part.

Laughs come rolling gently-melancholy in "No Minor Vices," the second half of the bill.

Fresh and provocative in its situation, the plot of this hilarious triangle tells the problems that come up when an uninhibited lover invades the privacy of a young doctor and his devoted wife, who bring about a hurricane of complications.

## CURTAIN TIME

CAPITOL — "WORDS AND MUSIC." Features at 12:10, 2:27, 4:44, 7:00, 9:25.

# Sunday School Meet Planned

About 25 churches and 15 other religious denominations will be represented at a Sunday School Convention to be held March 26, 27 and 28.

The convention is to be directed by Rev. H. E. Garner, Chicago, executive secretary of the Evangelical Training Association, who will be in Edmonton during that week-end.

Rev. Garner says in Edmonton about a year ago on a short visit. The convention will be opened with a banquet at the Hotel Elgin on Sunday March 26 at 6:15 p.m. This will be followed by a service in Pentecostal Tabernacle at 8 p.m.

On March 27 there will be a special service in the Revival Tabernacle at 2 p.m.

A worship service is planned for the Revival Tabernacle at 7:45 p.m., Monday, March 27.

In addition to attending the convention session, Rev. Garner will speak on various topics, programs while he is in Edmonton.

# Churches

## Central Church Plans Special Service Sunday

The Central Church of Christ celebrates its 30th anniversary on March 26. Special services are planned for the entire day.

At 4 p.m. the congregation will observe the church's birthday with a bit of the past and to recognize efforts for the future. Talent cards will be returned by each member of the congregation, and a special effort extended for the church in the last five weeks.

The ladies will serve a light lunch at the church at 11 a.m. and a Bible film will be shown during the evening service.

J. E. Bergman, B.Th., is the president of the church. Other members, only J. B. Thompson is resident with the church.

## Baptist Union of Western Canada

Strathcona Baptist Church, 84th Avenue at 104th Street, Rev. G. H. Allison, Minister, Acting Church Leader

## Lutherans Name Head

Rev. Otto Eklund of Meeting Creek, Alta., was elected president of the Alberta district of the Lutheran Evangelical Church at the recent meeting at Lake Louise.

The 14 congregations of the Alberta district were represented by three pastors, two student pastors and eight lay delegates.

Other officers elected were Rev. L. T. Thompson, Calgary, vice-president; Rev. Paul Svensson, Scandia, secretary; Rev. J. Arvid Vikberg, Edmonton, treasurer.

W. R. Turnbull, called the "father of missionary work in Canada," set up the first wind tunnel in Canada at Rothsay, N.B., in 1902.

## Young American In Japan Again

TOKYO.—A youthful American clergyman has started his missionary work in this country.

What says the Rev. Jacob DeWitt of Madison, Ore., apart is the fact that nearly seven years ago he was trying to kill Japanese as a member of the famous "Duke" time bombing mission against Tokyo.

"I am very glad to be with you this morning," the young clergyman said in his first sermon in this country. "I am looking forward to a wonderful time with you."

Proudly announcing  
the opening of the new warehouse of  
**D. G. LATTA**  
**LIMITED**

*Heavy Hardware,  
Mine, Mill, Blacksmith,  
Machine Shop and  
Welding Supplies*

**D. G. LATTA**  
*Limited*

9510 105 Avenue - Phone 21022

NEW HOME of D. G. Latta Limited, 10510 95 Street, will be officially open for business Monday. Modern three-floor structure is of steel and reinforced concrete construction. It is one of the largest warehouses of its kind in the city. D. G. Latta Limited is a wholesale distributor of mill, mine and blacksmith supplies, and was formerly located at 9528 102 Avenue.

## Bright, Cheerful Offices Feature New Warehouse

Offices in the new D. G. Latta building are bright and cheerful. Featuring the latest in decorative design and modern fixtures they can be classed as one of the most modern in the city.

Attractive specially designed interior, with a deep green trim covers the floor. The ceiling is finished in acoustical tile.

Three-foot panelling in maple finish encloses the walls of the premises, blending in with the doors and fixtures. An apple green paint finish decorates the walls.

Additional light from the fireless windows, which are located on the south side of the premises near the ceiling.

Two private offices are located at the rear of the general office, one of which will be occupied by Ben Latta, president of the firm. All three offices are air conditioned and served by an indirect heating unit. Fluorescent lighting predominates throughout.

### HUGE DISPLAY ROOM FEATURE OF WAREHOUSE

A huge display room, attractively decorated, in one of the many new features of the new D. G. Latta warehouse, which officially opens for business Monday.

Located on the first floor of the building just left of the general offices, this display room will house the majority of lines carried by the firm. It will resemble a hardware store, according to one official of the firm and will display mill, mine and blacksmith supplies in stock.

It is estimated that before the war, one-third of the U.S. families had incomes under \$1,000 a year.

### Paulin Chambers On Second Floor Of New Building

General offices and warehouse of the Edmonton branch of Paulin Chambers Company Limited are located on the second floor of the new D. G. Latta building.

Manager of the local branch of the popular biscuit and confectionery candy company is E. E. Nobles.

General offices are located at the southeast corner of the premises, while warehouse and storage occupies the balance of the second story.

## Latta Firm Opens New Home Here

In Business Here Since  
1902, Has New Location

A pioneer Edmonton business firm moves to a new home Monday.

Taking up business at a new location is D. G. Latta Limited which has been in operation since 1902.

The wholesale house for mill, mine and blacksmith supplies which has been in operation at 9528 102 Avenue since 1902, Monday moves to a new and ultra modern building located at 10510 95 Street.

This modern structure which houses three floors boasts 25,000 square feet of floor space.

Two floors of the building will be occupied by D. G. Latta, while the top floor houses the Edmonton office and warehouse of Paulin Chambers Company Limited.

The new D. G. Latta building is one of the largest warehouses of its kind in the city and is the latest word in modern construction.

Built of steel and reinforced concrete it features all the latest fixtures, appliances and building material.

Huge warehouse space has modern lighting installation, over head heating units and air conditioning which are thermostatically operated and controlled.

A bright elevator servicing all three floors of the structure is one of the larger Hamilton makes.

Unloading and shipping facilities are aided considerably by two loading platforms serving the railway spur line and three docks for incoming and outgoing local supplies.

An attractive front adds considerable prestige to the premises. Huge glass doors in chrome finished fixtures enhance the entrance which leads to a marble tile stairway with silver painted steel railings.

One flight of 20 steps down from the entrance leads you to the ground floor warehouse section.

while one flight up from the entrance leads to the general offices which are located to the right and at the south east section of the building.

A huge safe, with a safety light at the approach and to the left of the entrance, and the entrance to the company's display room and the main floor warehouse section.

Paulin Chambers Company Limited are presently occupying the entire space on the top story, their offices being directly above those of D. G. Latta Limited.

### Cancer Drive

MONTREAL, March 19.—(C.P.)—The Canadian Cancer Society announced yesterday that April has been set aside as "cancer month" and a donation-wide, month-long campaign will be held to raise \$1,000,000.

## Steady Progress History of Latta's

Firm Grows From Small  
Smithy to Large Business

Forty-seven years ago, David Gilliland Latta, set up a tiny frame blacksmith shop, near the St. Elmo hotel on 98 street.

The sturdy smithy soon worked up a fine business and continued to prosper with the result he was compelled to build additional premises in 1918, just eight years after he started shop.

Location of the new building was 928 103A Avenue, where he opened a wholesale house for mill, mine and blacksmith supplies.

He continued to operate the blacksmith shop until 1918 when he moved lock, stock and barrel over to his newest place of business.

The success and business progress of the popular smithy is legend. Old timers regard him as one of the finest and most honest businessmen ever to set up shop in the city.

As the years rolled by, business continued to increase and the building took on additions.

This success never let up and early last year the pioneer businessman decided his present place of business was too small to handle his affairs so decided to erect the new and modern warehouse.

He chose a site at the corner of 103 Avenue and 98 Street and work on the construction of the new home of his company got underway in early June.

But on November 11, 1948, David Gilliland Latta passed away at the age of 79.

Two of his five sons, Ben and Walter, who had been associated with him in business took over the reins as president and vice-president respectively.

D. G. Latta Limited today operates the new building.

Spur Line Will Assist Loading At New Building

New home of D. G. Latta Limited will have a spur line to assist loading and unloading facilities.

The railway line will be served by two loading and unloading platforms.

For local shipping, the new building boasts of three large outlets. A modern freight elevator has been installed and will serve all three floors of the premises.

## Latta Family One Of Edmonton Pioneers

A pioneer Edmonton family is that of the late D. G. Latta.

The pioneer businessmen who first opened shop in 1902 passed away on November 11, 1948 at the age of 79.

He left to mourn his loss, his wife, four daughters, five sons, seventeen grandchildren and three great grandchildren, one sister and one brother.

Daughters include, Mrs. F. H. Simmons (Sheik) of Dallas, Texas; Mrs. E. N. Sturrock, (Jessie Daryl) of Edmonton, Mrs. Eva Stevenson, Stillwater, B.C. and Mrs. C. W. (Kay) of Vancouver.

Sons are Ben, Alex, William and Walter all of Edmonton and Ernest of Vancouver.

His sister is Mrs. C. M. Milligan of Santa Fe, New Mexico and his brother Charles is living in Nebraska.

Both, however, have been associated with the company for a number of years.

Several employees assist the Latta brothers in the operation of the plant.

### Air Engineer Dies In Britain

SCHRIVENHAM, Eng. March 15—(AP)—Cecil Howard Lander, 48, who helped to develop jet propulsion and the fog dispersal system for the RAF, died Thursday. He was dean of the military college of science and meritorious professor of mechanical engineering at the Imperial college.

## Census-Takers Prepare To Give a Hand to UN

OTTAWA, March 19.—(CP)—A couple of years from now Canadians are going to have a chance to personally assist the United Nations.

The date will be around June 2, 1951, when some 18,000 enumerators start out on a door-to-door journey to enter the millions of vital statistics that make up a Canadian census.

Just where the United Nations census is was explained today by J. A. Lemieux, General of the census division at the Dominion Bureau of Statistics, who returned to Ottawa from a conference in Rio de Janeiro on census arrangements for North and South America.

Mr. Lemieux said in an interview that the United Nations census is generally standardized to allow for general comparison—providing the first comprehensive overall census ever taken for the Western Hemisphere.

The United Nations must have reliable statistics to carry on its work, Mr. Lemieux said. "It is the Food and Agricultural Organization is going to help in distribution of food throughout the world. It will have to know where the largest quantities are and where there are shortages."

Then when a Canadian farmer tells an enumerator that he owns a certain number of acres and will not be a census taker, he will not be a census taker, Mr. Lemieux said.

Mr. Lemieux said that the census is a very important part of the government's work. It is the only way to know where the largest quantities are and where there are shortages.

Mr. Lemieux said that the census is a very important part of the government's work. It is the only way to know where the largest quantities are and where there are shortages.

## Blind Dates Can Be a Lot of Fun

### It's Just What You Make It Say 'The Etiquette Experts'

By Dorothy Hart

Blind dates can be fun and every blind date is an adventure, which might lead you to your ideal—or to someone you would not choose to date again.

But whatever the outcome, it's up to you to be a good sport, and interesting and agreeable company on during the course of the evening.

Blind dates are only what you make them, say the "etiquette experts."

In order to avoid disappointments you should feel that you can trust your "date" and it is a wise move not to go out with someone you know absolutely nothing about.

AN SWER HONESTLY

Most boys and girls are a little leery about accepting a blind date. They usually ask a number of questions about the stranger and if you value your social judgment it is wise to answer all their queries honestly, should you be the date.

Nothing is so disappointing as being led astray with a date of the beauty of the girl you are out with. It is your privilege to refuse or decline any blind date about which you would have any doubt, but if you accept the date, then make the most of it.

If the blind date is a disappointment you can change it up to social experience and hope for the best on your next date. On the other hand, if the stranger turns out to be everything you expected him or her to be, be glad.

It is always helpful to know a little about the interests and abilities of your blind date, so ask

your date about the things you are interested in. This will help you to find out if you have anything in common.

It is also helpful to know a little about the interests and abilities of your blind date, so ask

your date about the things you are interested in. This will help you to find out if you have anything in common.

It is also helpful to know a little about the interests and abilities of your blind date, so ask

## Detailed Instructions for Submitting Your Entry in The EDMONTON BULLETIN "Match The Twins Contest"

When you have your one hundred and sixty pictures matched into what you think are slightly correct sets of twins and placed on fully matching frames (or facsimiles), and each set numbered on the matching frames in the space provided, all that remains for you to do is to fill out the entry form below and bring or mail to The Edmonton Bulletin "Match The Twins Contest" department, on before midnight Saturday, April 2, 1949. Here is a few guidelines for filling out the entry form, that appears below.

You will notice that the entry form contains numbers from 1 to 160 with a blank space opposite each. Similarly the one hundred and sixty pictures that appeared in the contest are numbered from 1 to 160. Now, in filling out this entry form, you are to place in the blank space the number of the twin picture that you have matched with the number 1 opposite it. You carry out this procedure until you have your complete eighty sets listed and all blank spaces on the entry form filled in.

For illustration purposes we will say that you have pictures number 1 and 49 matched as a set of twins. Now, opposite number 1 on the entry form you place the number 49. Now, when you come to the picture number 49 on the entry form you place the number 1 opposite it. You carry out this procedure until you have your complete eighty sets listed and all blank spaces on the entry form filled in.

CONTEST CLOSES MIDNIGHT, APRIL 2nd, 1949

Contestants have until midnight, Saturday, April 2, 1949, to mail or bring in their entries. Any entries postmarked after midnight, Saturday, April 2nd, 1949, will not be accepted. Contestants must submit their entries to the contest office, must deposit same in the main office where provision has been made for their acceptance. Entries will be accepted between the hours of 8:00 a.m. and 10:00 a.m. daily and on Saturday, April 2nd, from 8:00 to 12:00 midnight.

SPECIAL REQUEST

To facilitate handling and assist the judges in checking, entrants are kindly requested to parcel their entry flat or use suitable size envelope. Also to keep a copy of your own entry so that you may check same to ascertain the number of correct solutions you have. The correct solutions will appear from day to day commencing Monday, April 4th. We cannot undertake to advise entrants of the number correct on their entry after final results have been announced.

# NEW DODGE

DE LUXE and SPECIAL DE LUXE MODELS

**PERFORMANCE**—The powerful Dodge 97-h.p. engine has never moving parts, and a "sea-leg" shock absorber system with the unique 3-point floating beam engine suspension.

**ROOMY COMFORT**—The famous Dodge Floating Ride is smoother than ever. New, longer 1935 inch wheelbase further improves the Dodge "cradled, wave-resistant" ride—allows ample head and leg room front and rear.

**VISIBILITY**—You get a wide view of the road through the new higher, wider windows. Glass area is 37% greater than most other cars. New, more efficient wipers sweep glass more glass area. Defogger vent cover the whole windshield wiper.

**THE BEAUTIFUL NEW Dodge DeLuxe and Special DeLuxe models are cars you will want to see, own and drive. They're new... modern as tomorrow... with natural beauty that flows from true automobile design. There's more elbow room, leg room and head room... greater visibility... plus an amazingly smooth ride.**

Get behind the wheel! You'll appreciate the many improvements that add to the Dodge reputation for Dependability, Economy, Roomy Comfort and Smooth Riding. The famous Dodge Floating Ride is quieter and restful because of heavier insulation, softer rubber body mountings, improved springing, new "sea-leg" shock absorbers.

You'll like the power and economy of the 97 h.p. L-Head engine... and the many "extra" economy features such as an oil filter, floating oil intake and self-cleaning fuel filter in the gas tank, which are standard equipment. These new cars start easier, stop faster; you can see over the hoods; you can get in and out with ease.

See these great new cars today at your local Dodge-DeSoto dealer's showroom. Compare them feature by feature with other cars in their price class... then drive them and you'll agree that they are by far the outstanding automobile value of all the low-price cars.

# On The Farm

By Phil McVey

This is the season of the last barn dance, proceeds a tender farm news release on the dock.

It comes from a "sensitive" farmer in Montreal, and it goes to show that the "dry" crop of winter is broken and the "wet" crop is almost a sure thing. It is a good idea to have a "dry" crop of winter is broken and the "wet" crop is almost a sure thing. It is a good idea to have a "dry" crop of winter is broken and the "wet" crop is almost a sure thing.

It is a good idea to have a "dry" crop of winter is broken and the "wet" crop is almost a sure thing. It is a good idea to have a "dry" crop of winter is broken and the "wet" crop is almost a sure thing.

Alberta isn't such an industrialized province that there aren't any "dry" crops of winter is broken and the "wet" crop is almost a sure thing. It is a good idea to have a "dry" crop of winter is broken and the "wet" crop is almost a sure thing.

When I farmed it seemed like I was working 24 hours a day seven days a week. Now that I've quit I remember the other. I was working 24 hours a day seven days a week. Now that I've quit I remember the other.

# on the TOWN

By J. D.

Last, Edmonton's Pat Ashby is a sort of combination Mark Twain and Will Rogers of Capitol Hill. Mr. Ashby is often the butt of good-natured joking for his eccentricity in parliament. Last week he devoted much of his speaking time to the subject of sandwiches.

At the present session he's been telling the honorable members about raising hogs. Now it may be fine that members of the House of Commons should know how to raise hogs, but it's a little hard to see how that helps them in their job. It's a little hard to see how that helps them in their job.

On March 10 last, Mr. Ashby showed some sandwiches. He showed some sandwiches. He showed some sandwiches.

At this time Mr. Speaker I should like to introduce a matter of far greater importance to the people of Canada than party politics.

I refer to ham sandwiches. I have watched in cafes and restaurants individuals who have purchased ham sandwiches. I have watched in cafes and restaurants individuals who have purchased ham sandwiches.

The first thing that is to be done is to get the bread to use in these sandwiches. The first thing that is to be done is to get the bread to use in these sandwiches.

Pat goes on to describe how the bread is made. Pat goes on to describe how the bread is made. Pat goes on to describe how the bread is made.

When I see people doing that in this land of abundance I am to myself that if we start them eating bread they will be satisfied. When I see people doing that in this land of abundance I am to myself that if we start them eating bread they will be satisfied.

We can get people to shut for any substitute we like as we have witnessed in the case of margarine. When people will eat for an artificial substitute rather than the genuine article is a time that we did something about it.

Somebody has found that bread is made from wheat. Somebody has found that bread is made from wheat. Somebody has found that bread is made from wheat.

CAR PERFORMANCE and protection for the motorist is maintained through constant laboratory testing of products made from Alberta crude oil at the Imperial refinery east of Edmonton. Technician James New checks the flow of oil through one of the viscosity meters.

## Many New By-Products In Oil Are Anticipated

As the oil industry continues to develop, many new by-products are anticipated. As the oil industry continues to develop, many new by-products are anticipated.

Back in the 1860's, crude oil refining was considered an art, and kerosene was what the public wanted. Back in the 1860's, crude oil refining was considered an art, and kerosene was what the public wanted.

Gasoline was a waste product and little use was made of petroleum lubricants. Gasoline was a waste product and little use was made of petroleum lubricants.

Research chemists and engineers have changed all that. Research chemists and engineers have changed all that.

Accurate instruments check each of the oil flows through the refinery's maze of units and columns. Accurate instruments check each of the oil flows through the refinery's maze of units and columns.

One of the most important products is gasoline. One of the most important products is gasoline.

Another important product is kerosene. Another important product is kerosene.

There are many other products as well. There are many other products as well.

The first chemists employed by the industry found their main task was to purify the oil. The first chemists employed by the industry found their main task was to purify the oil.

Now, the task is more complex. Now, the task is more complex.

More gas is needed. More gas is needed.

The development meant that the gas, used only in heating the still, now could be turned into a valuable product. The development meant that the gas, used only in heating the still, now could be turned into a valuable product.

As the engines which powered motor cars, aircraft, ships, and industrial plants improved, they required better and better lubricants. As the engines which powered motor cars, aircraft, ships, and industrial plants improved, they required better and better lubricants.

Research developed these products. Research developed these products.

A method of distilling lubricating oils under vacuum was introduced and chemical compounds that undesirable compounds in the oils could be removed. A method of distilling lubricating oils under vacuum was introduced and chemical compounds that undesirable compounds in the oils could be removed.

## Treasury Branch Deals Under Fire in House

### City Hospital Faces Problem Of Congestion

Number of patients in the Royal Alexandra hospital and annex has been high during the last two months and is progressing a new program to hospital officials, several staff members were released last night.

Average number of patients in the hospital and annex per day during January and February of this year totaled 504.4, which is an average of 504 for the same period last year.

Total number of patient days during the first two months of this year totaled 10,088, compared with 9,088 in the same period last year.

The increased number of patients has led the hospital authorities to consider a new program to hospital officials, several staff members were released last night.

In addition there is always a large waiting list, according to Dr. H. H. Macdonald, superintendent of the hospital.

Several members of the hospital staff were released last night.

At the opening of the session, Mr. Thum was a member of the first graduating class of the University of Alberta law school in 1921.

He has been a civil servant for 24 years, holding the position of public administrator for many years.

### BEAUTIFUL GIRL—BEAUTIFUL GOWN—BEAUTIFUL SPRINGTIME

THE LOVELINESS of this entrancingly feminine frock modelled by Miss Rosalie Melville is the answer to every woman's wish for flattering finery. Of white hand-printed chiffon, this strapless model

is completed with a graceful stole of matching material. The stole is fastened to the voluminous skirt, and can be worn as a drape or not in use as a stole.

### CASUAL TOPPER FOR SPRING '49

DASHING SMARTNESS of this gardenia topper worn by Nancy Tighe gives the key to '49 fashion's versatility. This model, belted in the back and styled with a drop-shoulder line, is beautiful for our Atlantic seashore. Miss Tighe's Italian basket-weave stole is trimmed with feathers in flower.

### Spring Bonnets Match Contour

High crown, low crown? Wide brim, no brim? Which is for you? Any and all, if you have a perfectly oval face.

But if, like most women's faces, yours is long, square, round or triangular, there are certain lines that are more flattering to you than others.

If you have a perfectly oval face, don't read any further. Your hat can have the blithest shape and the widest roses in the Easter parade.

If your face is long, a bonnet with a broken crown will cut the height of your forehead, and a deep crown will help hide the depth of your head. If you're tall enough, you can also wear a large-brimmed hat, providing the brim dips.

Don't wear a high crown or a tiny hat on the top of your head or a hat with most of the trimming at one side.

If your face is square, try a smallish sailor with a flower-filled brim to balance the width of your cheekbones.

Don't ever wear a crown smaller than the widest point of your face and never a hat that sits on top of your head.

A rolling brim with a profile line, a tilted, draped turban, a beret angled to one side are also good.

If your face is triangular, you can balance a pointed face best with a thick-edged bonnet. This will emphasize its heart-shaped look, and the tapering line from crown to ears gives the illusion of an oval.

You can also wear a slanted pillbox set slightly back or a small beret manipulated into the same basic lines. Avoid bulky crowns or too much back-trim. That overweighs the face.

If your face is round, your hat line should be broken at the side. A deep crown is a good balance, and a wide brim gives the necessary frame to the face.

You can also wear a deep-crowned hat with high brim at one side, a one-sided toque, a bonnet with a high curving arched brim.

Avoid a small high crown or the shallow crowned hat worn on top of the head.

### TONE BLEND FOR "CHIC"

CHIC ELEGANCE of David gray and silver-blue in fine galantine points to perfection on this night suit just worn by Mrs. E. Astud. The two longer tones length, empire-breasted jacket with contrast treatment and pencil-line skirt add up to a 100 per cent score.

### Fashions Flaunted For Easter Parade

With Easter parading the next important event on every woman's calendar, new finery is at the top of the shopping list.

With this in mind, the Edmontan Kiwanis Ladies' Club is sponsoring a delightful fantasy of fashions this week.

Featuring clothes from C. Woodward Company Ltd., the show will be staged at the Trocadero ballroom Wednesday at 2:30 p.m. and 8:30 p.m.

Mrs. L. R. Egan is convening the style parade and is being assisted with arrangements by Mrs. Jack Strachan, Mrs. Harry Maddison and Mrs. Lou White.

Modeling in the show are Mrs. H. B. Burrows, Mrs. Robert Bradburn, Mrs. W. L. Naubert, Miss Nancy Tighe, Miss Lucienne Patterson, Miss Della Findlay, Mrs. J. W. McKinnon, Mrs. Inez Weeks, Miss Rosalie Melville, Miss Evelyn Richardson, Mrs. S. Anward and wee widdies Margaret Ann Maddison, Carolyn Adams and Sharon Currell.

And now for a line on wise accessories . . . the punctuation of fashion perfection.

Your spring handbag can be as roomy or as tiny as you like. As one purse designer puts it—"size has no strict limits, it all depends on the handbag's purpose."

So there are roomy traveling handbags shaped like a satchel or a valise. Inside are countless little compartments to keep everything in its place. Some of them even have outside envelope pockets with a snap-down flap so you don't have to rummage in the big compartment for small change.

The dressier bags the smaller they seem to become. Envelope bags to tuck under your arm are slim and dainty. And an even smaller envelope bag is called the hand-sized bag.

For strictly dress-up occasions, black faillie (file) is made into tiny pouch bags. One of these has a draped overlay at the top with a T-clip cord handle.

Modern crocheted bags moved far away from dresses to hats and came to handbags. One firm is putting out three different shapes in the ribbon-crocheted bags. And they come in a range of shades from the cream to deep navy, and a sporty bag with a rectangular, boxy frame. Then the third shape in ribbon crochet is an oval shape with double overcast handles.

The designers say the crocheted ribbon bags won't stretch, and they'll clean with a regular cleaning fluid.

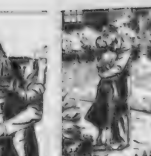

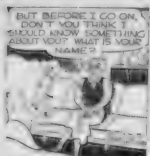

### JACKET FROCKS ARE TOP OF LIST OF FLATTERERS

MATCHED ENSEMBLES for figure flattery and "wearability" please the matron more than any other fashion innovation. Mrs. J. W. McAllister, left, wears an unusual cream-and-navy suit with three-quarter length sleeves and a high collar. Emphasizing firm on the jacket makes the costume both distinctive. Mrs. Inez Weeks' looks, clinging to a four black and white and novelty print dress. Color of the jacket matches the print and the ensemble is a picture of smartness.

[illegible]

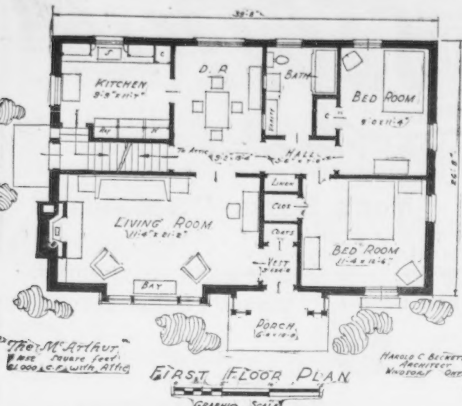

**THIS UP TO DATE** design using readily available materials combines economy and convenience. The basic plan is excellent. There is a minimum of hall space and the rooms permit a good furniture arrangement. The depth of 26' x 8" in brick utilizes stock joint lengths without waste. A stair leads to the attic which is of sufficient size for two additional bedrooms if desired. Overall width is 39' 8". The lot width should be about 60 feet. This is another in a new series of artistic, practical house designs prepared for Bulletin readers by Harold C. Beckett, MRAIC, 62 Chatham street, West, Windsor, Ontario.

## Average Man Out In Housing Setup

### Market Almost Limited To \$10,000 Class, Survey Shows

By Barbara Abbott  
Present day housing programs are not benefitting the average working man.  
"Impossible" was the way one prominent dealer summed up the situation. "How can the average man buy a house with prices at the present level?"  
And so the demand for lower priced houses is endless. Agents admit the value of houses would be greater if lower prices were maintained.  
The day of "selling" would return, they say, and real estate values stabilize.

With a view to following sales trend, agents across the Dominion have been alerted by the Canadian Association Real Estate Boards to collect data, compile statistics and make available to every member information that will help plan future business.  
And every real estate agent will recognize the truth of that bald statement.  
It is a fact which on a long term basis may result in a slackening trade.  
With a buyer market limited to those in the over \$10,000 class, since rising the ordinary man—the fellow who needs the accommodation—is left out in the cold.  
He sees the daily ads offering five-room houses at \$15,000 or more. He knows that here is an empty house where he could take his wife and children to live a normal life, if he had the money.  
He knows also where he could get a house under the national housing scheme, if he could afford to pay around \$45 to \$50 a month cash on top of a down payment and the initial output for furniture.

No definite plans have as yet been formulated on the proposed theological college to be erected by the Church of the Latter Day Saints.  
Site for the college—three lots on the west side of 116 street, south of 89 avenue—were purchased early this month for \$2,000.  
Negotiations between a number of large business firms and First Baptist Church authorities continue. No agreement has been reached yet, however, as a price. Last offer made was \$25,000.  
If a satisfactory figure is reached, church authorities will probably pursue their interest in a site on 106 street between Jasper avenue and 100 avenue.

Another grand building, that of a new Famous Players movie theatre is apparently being held up through the high cost of materials.  
It is as yet undecided when construction will begin.

## Saskatchewan Expects 6 To 9 Uranium Fields

REGINA, Sask., March 18.—(RUP)—Discovery of at least six, if not nine, new uranium fields in northern Saskatchewan, was forecast by W. J. Hieban, director of mineral resources for the province last night.  
Hieban said work already done in the northern part of the province indicated three definite uranium fields in that area. It can be fairly assumed, he added, there are at least six additional fields in northern Saskatchewan and that three of them may be found in the 1933 season.  
Hieban told the Association of Professional Engineers at their meeting here today that a stable mineral production in the province lay in uranium and petroleum.

The deepest place in the ocean yet found is off the island of Mindanao, in the Philippines, where a sounding of 35,400 feet has been reported.

## Arab Legion Grant Raised

LONDON, March 18.—(RUP)—Great Britain announced a \$4,000,000 increase last night in its subsidy for the Transjordan army.  
Next year's subsidy, officials disclosed, will be \$4,000,000 instead of \$3,000,000. They said the increase was to cover high costs rather than to permit any enlargement of the army.  
The Arab Legion, which numbers some 8,000 men, will use most of the subsidy.  
The British payment covers not only most of the Arab Legion salaries, but also enables King Abdullah to buy arms, gasoline and other supplies.  
Officials said without the subsidy Transjordan would not be in a position to fulfill the Anglo-Transjordan treaty of mutual assistance.

**Mineral Output Up**  
WINNIPEG, Man., March 18.—(RUP)—Value of mineral production in Manitoba in 1948 set a record high of \$28,768,000. It was revealed in the legislature here yesterday.

## Oil Firm Said Driven Out of Sask. by CCF

REGINA, March 19.—(CP)—Opposition leader Walter Tucker charged in the Saskatchewan legislature yesterday that the Imperial Oil company had been driven from this province into Alberta by the policies of Saskatchewan's CCF government.

The oil company later discovered Alberta's Leduc field and made other discoveries in that province.

Mr. Tucker made his claim while the House was in committee on estimates of the resources department.

Speaking during opposition criticism of government oil and mineral

development policies, Mr. Tucker said many of the millions spent on oil exploration in Alberta were driven there from Saskatchewan when the CCF took office in 1946.

He said Alberta gained and Saskatchewan lost "a great development," because the CCF government drove Imperial Oil out of the province. The government "would not deal with Imperial or even as agent."

Mr. Tucker said that when resources minister J. H. Brocksbank disclosed that Imperial Oil had been in Saskatchewan prior to 1946

## Court Action Is Longest Ever

CALGARY, March 19.—(CP)—Mr. Justice C. J. Ford in Supreme Court yesterday reserved decision on the \$2,578 claim by 13 residents of Rosemary against the Canadian Pacific Railway for alleged damages caused by a flood last April 21.

It was believed to be the longest civil action ever held at Calgary for 70 occupied the time of court for 18 days, extending from last Nov. 28, with three adjournments, until today.

but had gone to Alberta he had made "a great confession."

Mr. Brocksbank said "Imperial" here had been happy to stay here had we been willing to give them everything, lock, stock and barrel."

## RAIL UNIONS TALK NEW WAGE SCHEDULE

MONTREAL, March 19.—(CP)—Frank H. Ball, chairman of the general conference committee of international railway unions in Canada, said yesterday the matter of a new agreement with the railways was discussed at the committee's recent meeting but "no plans were formulated."

Mr. Ball, leader of a negotiation committee which won a 17-cent, 40-hour increase for 140,000 rail employees last year, was commenting on a statement in Lehigh, Pa., by Edward Castles.

Mr. Castles, who attended the committee's meeting last week, said the unions will ask soon for a new agreement similar to working

## CALGARY BULL SALE CREATES ALL-TIME MARKS

CALGARY, March 19.—(CP)—Calgary's 49th annual spring bull sale ended last night after smashing 19 all-time records. A total of 1,000 pure-bred bulls sold for \$640,370 at an average price of \$640.37. Total sales were \$654,373.73, including \$14,003.73 for baby beef.

New records included: Total sales, \$640,370; old record, \$413,900 set in 1945.

Average price, \$640.37; old record, \$479.15 set in 1947.

Number of bulls sold, 1,000; previous mark, 953, set in 1945.

One young stocking contains an average of 1 1/4 million yards.

## Tourist Finance Rules Eased in West Europe

OTTAWA, March 19.—(CP)—Canadian tourists can in future take any reasonable amount of Canadian dollars for travel in France, Belgium, The Netherlands, Norway and Luxembourg, Finance Minister Douglas Abbott announced yesterday.

He explained that hitherto tourists to these countries had been subject to the same restrictions as those going to the United States and could only take \$150 per year with them.

"So far as Canadian travelers and concerned, these countries are now placed in a similar position to those in the sterling area, in the sterling area," he said. "The official rate is 344 francs to the Canadian dollar."

This relaxation followed agreement with French authorities that Canadian dollars spent by tourists in France would be convertible into francs at the "free rate for U.S. dollars" of 344 francs to the dollar, he said. The official rate is 344 francs to the Canadian dollar.

Commercial banks would, the lightest money, weight only seven to eight pounds per cubic foot, according to the Encyclopedia Britannica.

The EATON Store in Edmonton Opens at 9:30 a.m., Closes at 5:30 p.m. Daily, Except Wednesday, 9:30 a.m. to 12:30 p.m. To Call EATON'S, Dial 9-1-2 See Window Displays!

### How You Can Save Enough To Pay For A Presto Cooker

Which Saves an Average of 16.6c Per Day

Reports came in to an independent research organization from 500 women who claimed that actual Presto Cooker savings were from 6c to 50c per day. This claimed saving averaged 16.6c per day. You can readily see that if this saving were applied to the cost of a Presto Cooker, it would soon pay for itself. All women agree that the Presto Cooker saves money because:

1. Presto cooking prevents food wastes.
2. Presto cooking saves weight usually cooked out of meat and vegetables.
3. Presto cooking makes less expensive meals tender—juicy—appetizing.
4. Presto cooking saves fuel because it's so fast.

"MEAT-MASTER" 8 quart capacity 16 1/2 inch dia. for cooking \$19.95

Other models, 5 1/2 quart, \$14.95; 6 quart, \$16.95; 8 quart, \$19.95; 10 quart, \$24.95.

Presto COOKER

Cookers of \$15.00 and over are available on the Convenient EATON Budget Plan.
